

Wycombe Wanderers are thrilled to unveil their brand-new home and change kits for the 2025/26 season, produced by hummel.

The striking new strips were filmed and photographed at the iconic West Wycombe Park and modelled by men's first-team stars Jack Grimmer, Bradley Fink and Caolan Boyd-Munce, academy duo Joseph Kandala and Kayden Quarcoo and women's team pair Emani Kassem and Jess Watkins.

Wanderers' iconic light and dark blue quarters are accompanied by a stylish yellow and blue change strip and a green and white checkered third shirt, all of which will be available to purchase later this summer, with on-sale dates to be confirmed in due course.

The home shirt will be adorned by hundreds of young season ticket holders who benefitted from a free home shirt when they purchased a child's season ticket for just £25 anywhere in the stadium for the 2025/26 campaign.

And each kit style has been incorporated into two brand-new reversible bucket hats which are on sale now from the club's brand-new online store at shop.wwfc.com.

Fans can register on the shop website to be the first to hear when the kits are available to buy.
